I have known Bud since he was a youngster (only 2 1/2 years younger than me) when he was at our house every day with his brother Mark, and my brother Skip. Those 3, along with John Johnson, could always be found doing something in the woods, in the garage (removing hinges from the fridge to get to dad's keg), or just hanging out. I'm sure there are many stories to tell that I wouldn't know all the details, but a few of them involved mud and towstraps. My sincerest heartfelt condolences to the entire family. Praying for peace and strength to carry you forward in this sad time.

There will never be another 20+ years to build a relationship like I had with my best friend. There are too many memories to post but one in particular is when Bud first got with Barb and he rented an apartment at an old gas station in the hood. You would really have to know Bud to know what I'm talking about and what that means. I love you Bud and I'm sorry I didn't come when you texted "hurry up". That will burn.
