I never knew any body like her. She has wanted to be with the lord for a year now. I spoke with her on the phone almost everyday for several years. Usually a few laughs about robo calls. She was good friends with my mom. At 6 years old she heard about Lindbergh flying the atlantic. A few years later she saw the talking movies. In her early 20's it was pearl harbor and the big war. Elvis in the 50's. the beatles in the 60's and in 1969 saw the first man on the moon. A few months ago it was the robots on mars. Just a few weeks ago she was making sure her kitchen floor was clean. Her mind was always sharp until the end.. Jim Cox.
