He was one of the pillars that held us all up. Always had something new and interesting to do up camping. We will never be the same without you, Tony. You will be missed.

Tony had such an incredible impact on my life that, in my 48 years, there was not often a day that would go by that I didn't think about him. Tony never hesitated to answer my many questions as a 7-year-old boy curious about repairing or building bicycles, or really anything for that matter. I knew him as a gracious, helpful person always willing to help if he had the ability (which he usually did). I'm sorry his family has to go through this.

You were everything I was looking for . My dream guy in a camouflage hat . You made this ordinary girl feel beautiful in your embrace. I'm so lost without you . The hole in my chest is just getting bigger . God please hug him for me and tell him . I Love him still

"No matter where you are, whatever age you are, legal or not, day or night, if you are in trouble or need me for anything just call and I will be there, no questions asked" That was a direct quote from my uncle Tony. He told me this when I had just started high school but I have remembered it every single day since and always knew that someone loved me and had my back no matter what! He was an amazing person through and through, no matter what you needed or who you were he had it covered. I now wish I had more pictures of him but the only ones I have are of him being amazingly kind by taking our wedding video for us which I will forever be grateful for!
